DESIGN CLASSES FOR COMPUTERIZED LONGARM QUILTING

# ART AND STITCH • STAY AT HOME CLASSES

## Introduction

The Stay @ Home Classes are based on our Three Days Art and Stitch Retreats given at several locations in the USA. The Stay @ Home Classes are drawing / designing / digitizing classes, with more and newer tips and techniques.

Where the free videos on our Academy website are teaching you *how to use Art and Stitch*, the optional Stay @ Home Classes are showing *how to be creative with Art and Stitch*.

- You can follow the Classes online and watch the videos at your own pace as many times as you like, pause, rewind where needed, all in the comfort of your home - no traveling for you, no traveling for us.
- Each Class includes a printable Class Handout with step by step descriptions of the techniques.
- AND you will get the finished designs too - so you can cheat big time, by just using the designs and not creating them yourself :)

 **Tip:** Before starting any of the Stay @ Home Classes, it's a good idea to watch the free videos on our [artandstitch.com](http://artandstitch.com) website (section "Academy") to get familiar with the basics of Art and Stitch, thus getting the most out of the Classes:

To purchase one or more Stay @ Home Classes, visit web page:

## Important - Copyright notice

The Videos, Class Handouts and Designs of our Stay @ Home Classes are for your own personal use and may not be shared with anyone. You are allowed to stitch the designs on any item, but the design itself may not be shared, sold or become part of a design collection.

After reshaping a design: Minor changes will not make it your truly original design. Only if you reshaped a design so much that I cannot recognize it anymore, it has become yours.

Thank you for joining our Stay @ Home Classes!

*Loes van der Heijden*
